ICEPAK

ICEPAK is one of the leading names in importing seafood.

We travel the world to source not only seafoods, but game, poultry and meat products to provide extensive choice for the markets, whilst maintaining price stability and quality. As our name suggests, we offer a huge variety of frozen seafoods - over thirty types of prawn products for instance, together with specialities such as mussels and whitebait, and household favourites like crabsticks and scampi. We also stock poultry from whole birds to breast fillets, plus a range of game, beef and pork products.

We are constantly assessing new lines and our close working relationship with suppliers and customers ensures that the type of product, its quality, and its price are right for the market.

As part of the Yearsley Group, Icepak has access to a vast storage capacity at depots throughout the UK and a fleet of over 300 vehicles. This enables products to be purchased in bulk, ensuring supply and value for money throughout changing climates. The detailed catalogue boasts a substantial range of regular core lines. In addition to this there will be quality products purchased and offered at discounted prices on a monthly basis. Also included within our product portfolio is a vast representation of ethnic certified products.
